# Contents

<b>Appendices</b>	<b>3</b>
<b>A Insert benchmarks</b>	<b>4</b>
<b>B Update benchmarks</b>	<b>6</b>
<b>C Delete benchmarks</b>	<b>8</b>
<b>D Read benchmarks</b>	<b>10</b>

# **Appendices**

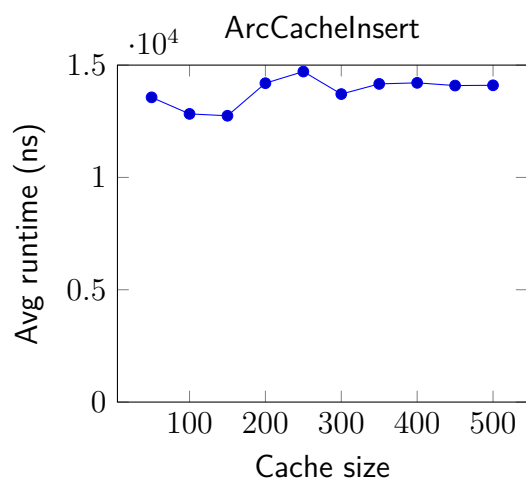

# Appendix A

## Insert benchmarks

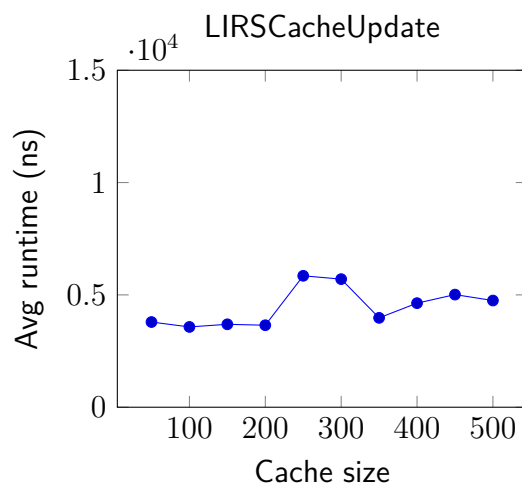

These benchmarks have an average execution time above 5000 ns. Due to the scale difference they are placed separately.

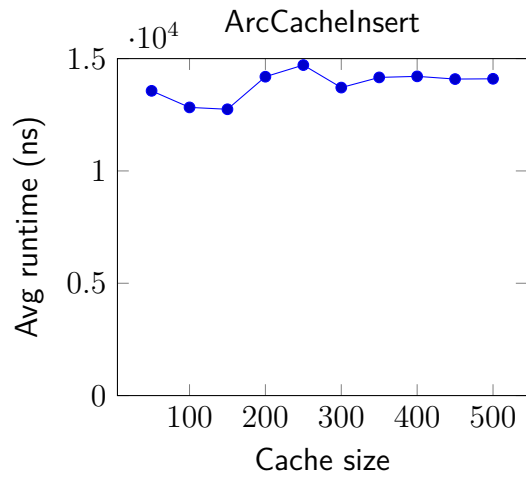

# Appendix B

## Update benchmarks

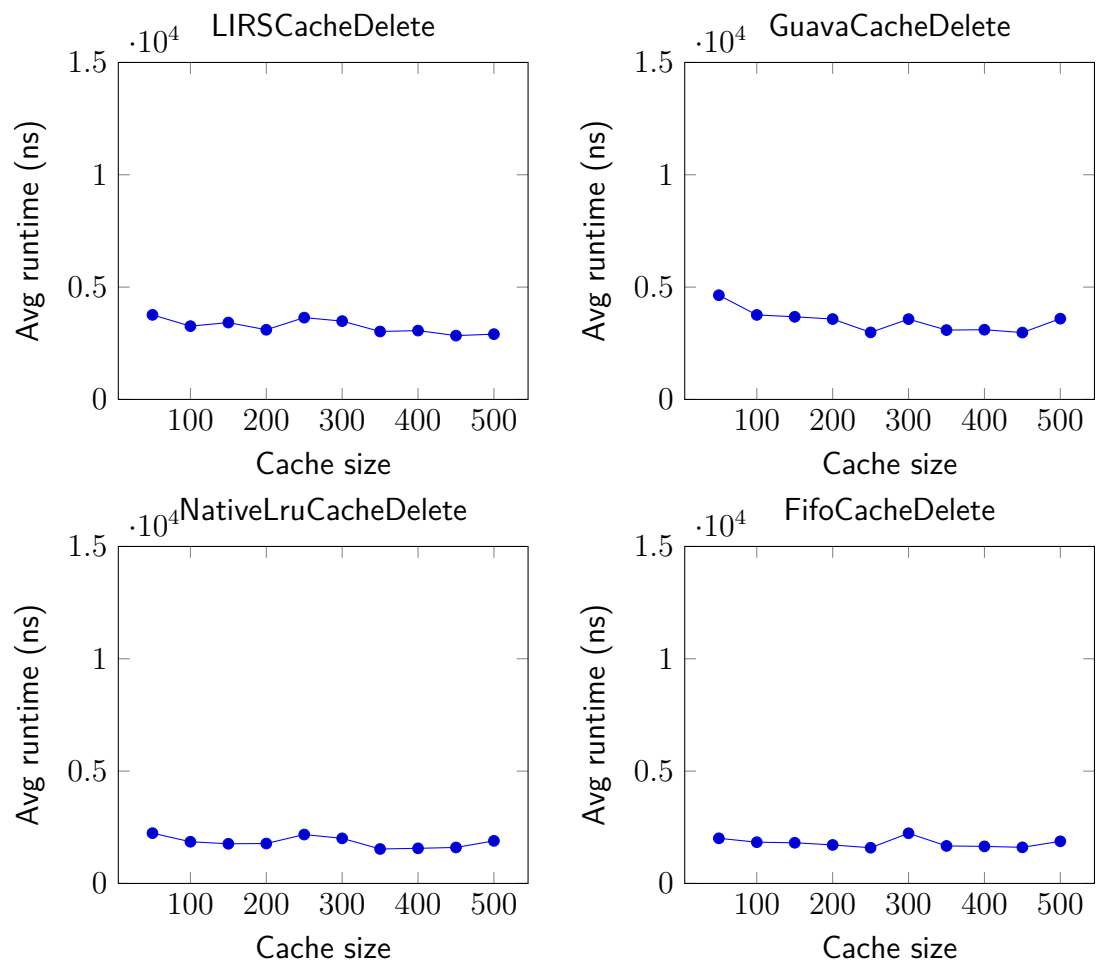

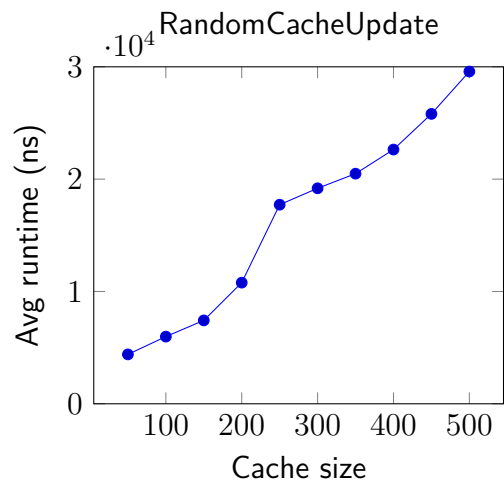

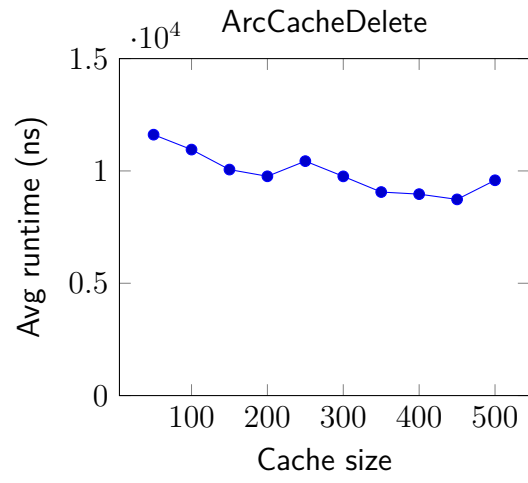

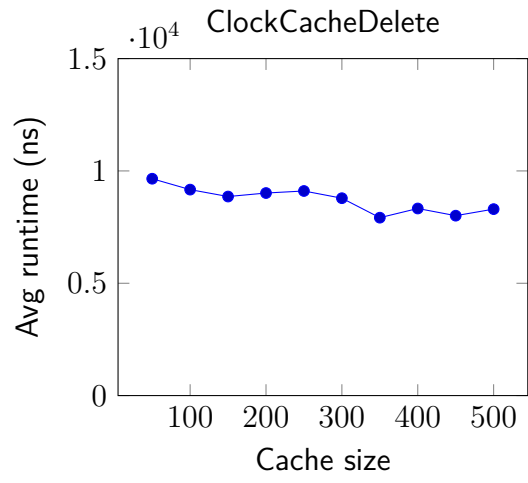

Due to the linear fashion of a random cache update, random cache is placed separately and has a different scale.

# Appendix C

## Delete benchmarks

## **Appendix D**

### **Read benchmarks**
